

GERMAN LANGUAGE

MY VOCAB BOOK

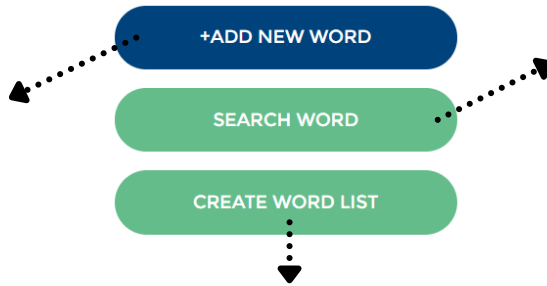

This application will help you to build and organise new vocabulary. A wide range of different learning interactions (exercises, games and mock tests) is available to help you practise and master new vocabulary

ENTERING AND EDITING WORDS

Enter, search for and edit your new vocabulary here. You can also access your textbook vocabulary and create a list of the vocabulary by chapters or themes.

Add new words to your vocab book according to word category. Fill in the meaning, article (if word is a noun), tags and other relevant details.

Do a comprehensive search across your own vocab book, the textbook vocab or both. You can also edit details here and export words as csv or text.

Create word lists by textbook chapter or tag and download them in csv. This could be useful in your revision for tests.

LEARNING INTERACTIONS

Play a game or do an exercise or a mock test with the words from your vocab book.

Play 5 fun games, namely Letris, Memory, Hangman, Mole Game and Shooting, with words from your vocab book. The games will help you memorise different aspects of vocab.

Try out 3 exercises, namely MCQ, Matching and Flash Cards, which are designed for you to internalise German vocab and meanings in English.

Evaluate your learning here. You can attempt mock tests chapter-wise to practise for your vocab tests in class.
